Thank you for your submission of [SUBMISSION TYPE] materials for this research study. On behalf of Sparrow Health System, your submission has been reviewed by me, or my designee, under the Component Hospital Agreement between Sparrow Hospital (SHS) and Michigan Cancer Research Consortium (MCRC), dated 11/15/04 and last amended 7/06/05 ("the Agreement"). Based upon: (i) the terms and conditions of the Agreement and (ii) the approval of the IRB associated with MCRC and Saint Joseph Mercy Hospital Health System's Oncology Central IRB ("OCIRB"), with which Sparrow has an IRB Authorization agreement, Sparrow Hospital has **ACCEPTED** the recommended study for implementation at Sparrow.

Please note that as principal investigator for this study, you agree to:

- Comply with the OCIRB policies and procedures,
- Maintain the confidentiality of all subjects,
- Promptly notify the Sparrow IRB if the study is suspended or terminated, or if IRB approval lapses, or the study closes,
- Serious unexpected adverse events occur involving a local subject, and
- Utilize the approved Sparrow Hospital HIPAA Use and Disclosure Authorization form, when applicable.

The OCIRB, associated with MCRC and SJMH, is now the IRB of record. However, the research records and staff for your project will remain accessible to the Sparrow Health System IRB for quality control and compliance monitoring activities.

Please note that the Sparrow Health System IRB reserves the right to withdraw its approval of this reliance at any time for reasons such as noncompliance with OCIRB or IRB policies and procedures.

Sparrow Hospital's approval is not to be construed as action by Sparrow's IRB, the Institutional Research Review Committee.

If you have any questions, please contact us at 517.364.2150 or via Email: irrc@sparrow.org. Please include your study title and IRB reference number in all correspondence with this office.

George S. Abela, MD, IRB Chairperson
For Edward W. Sparrow Hospital
