

Sparrow Founders' Day Award

Presented by the Women's Board of Managers

The Women's Board of Managers and Sparrow are requesting nominations for the 2010 Founders' Day Award. This award represents the highest honor given to a volunteer, community member, retired associate, or physician that has made a significant contribution to Sparrow's goal of being recognized as a national leader in quality and patient experience.

The spirit of Founders' Day honors our founders, the 114 charter members of the Women's Hospital Association. These women opened the hospital's doors on March 18, 1896 and the Founders' Day celebration is held on or about this date to remember the vision and dedication of our first leaders. Each year, the Founders' Day recipient is selected by the President of the Women's Board of Managers, the Chief of the Medical Staff and the Chair of the Health System Board.

Please take a moment to complete the application to recognize a worthy candidate for this honor. Nomination forms are due by January 15, 2010.
