

# ALL INPATIENT PROGRAM OUTCOMES

Mary Free Bed  
Rehabilitation

Service Dates: Jan. 1, 2020 through Dec. 31, 2020

## STRIVING FOR EXCELLENCE

Mary Free Bed at Sparrow is the largest provider of inpatient rehabilitative care in mid-Michigan and the region's only Level 1 Trauma Center.

This report demonstrates who we served in 2020 and how a number of important performance measures compared to national outcomes.

## PATIENT SATISFACTION

Mary Free Bed at Sparrow earned special distinction as the Top Performer in "Overall Quality of Care" for inpatient rehabilitation by Professional Research Consultants.

## DISCHARGE TO HOME & COMMUNITY

At Mary Free Bed at Sparrow, more people were discharged to live in the community compared to the nation.

## FUNCTIONAL IMPROVEMENT

### Using the QRP Scale

We use an outcome tool called the Quality Reporting Program (QRP), which is the most widely accepted functional assessment measurement system in inpatient medical rehabilitation. The point system compares our patients' outcomes with similar inpatient rehabilitation programs across the nation.

The QRP scale measures the level of functional improvement gained from admission to discharge for a variety of skills and abilities used in daily life.

## QRP FUNCTIONAL CATEGORIES

<b>Self-Care</b>	Eating Oral Hygiene Toilet Hygiene Shower/Bathe Self Dressing upper and lower body
<b>Mobility</b>	Transferring ( <i>bed, chair, wheelchair, car</i> ) Mobility ( <i>roll, sit to lying, lying to sit</i> )
<b>Walk</b>	Walk Walk with two turns Walk on uneven surfaces Stairs Pick up object
<b>Wheelchair</b>	Wheel in wheelchair

# ALL INPATIENT PROGRAM OUTCOMES

Mary Free Bed  
Rehabilitation

Service Dates: Jan. 1, 2020 through Dec. 31, 2020

## PERSONS SERVED BY DIAGNOSIS

 NUMBER OF PERSONS SERVED: **867**

## DIAGNOSIS BY CATEGORY

## AVERAGE HOURS OF THERAPY PER DAY

In 2020, Mary Free Bed at Sparrow patients participated in an average of 3.4 hours of therapy five out of seven days, exceeding Medicare-mandated minimums for inpatient rehabilitation programs.

## UNPLANNED TRANSFERS FOR ACUTE CARE

Under certain circumstances, a patient may demonstrate changes in his or her medical condition that warrant a transfer to acute care for close medical monitoring. If this occurs, patients are transferred to acute-care services and typically return to the inpatient rehabilitation program within a few days.

During 2020, the frequency of these transfers for all adult patients at Mary Free Bed at Sparrow was 9% compared to the national average of 9.7%.

## ONSET DAYS

Onset days refers to how soon a patient comes for rehabilitation after the initial diagnosis or injury. We are able to admit and start rehabilitation two days sooner than the national average.

## LENGTH OF STAY

The average number of days our patients stay with us is similar to the national average.

Mary Free Bed at Sparrow is committed to providing quality care. Our goal is to help you return to enjoying the things that matter most to you.

Thank you for considering Mary Free Bed at Sparrow for your rehabilitation needs.
