Q: Will you still accept my health insurance?
A: Yes, Sparrow Carson Hospital and its family care and specialty care practices will accept the same insurance plans as before integration, including PHP, BCBS, Priority Health, Medicare and Medicaid.

Q: When did the integration occur?
A: Carson Health has been a partner of Sparrow Health System since 1997, but became a fully integrated subsidiary effective Feb. 1, 2015, and officially joined the Sparrow family as Sparrow Carson Hospital. Sparrow Carson Hospital is changing its brand identity and adopting the Sparrow rings in alignment with other Sparrow subsidiaries. You will start to notice signs changing at the hospital first, followed shortly by all of the clinics.

Q: Will my care change?
A: You will continue to receive the same high quality care you have come to expect from your health care providers and Caregivers. This integration will only serve to improve local access to health care services, improve affordability of those services, and will continue to focus our efforts on improving quality of care and Patient experience.

Q: Will my Caregivers change?
A: The Physicians and Caregivers you know and trust will continue to provide high quality care to you and your family.

Q: Why did Carson Health choose to integrate with Sparrow and why now?
A: Health care reform has made it challenging to operate as a smaller, rural hospital. The Carson Health Board members and leaders recognized that partnering with a larger organization was necessary to prepare for a future with accountable care and health care reform where greater system integration is the key to long term success. Sparrow believes in providing the very best care, as close to home as possible, and is working together with Sparrow Carson Hospital to transform care in the region and keep services local.
